SAP S/4HANA Manifesto and Custom Code Whitepaper (June 08, 2020) - AM & PM

The SAP S/4HANA MOVEMENT program has created two guides to help SAP customers with their adoption of the new digital core:

- "Mapping Your Journey to SAP S/4HANA" is a very practical, condensed, down-to-earth guide for executives, project managers, decision-makers, and senior IT leadership on the most important facets of SAP S/4HANA projects, including strategical decisions, key ingredients for project success and essential tools.

- The second white paper - "Custom Extensions in SAP S/4HANA Implementations" introduces you to the most important concepts for a modern enterprise application's extensibility, guides through the key aspects of dealing with custom code during a system conversion and also offers practical advice for those who run a new implementation of SAP S/4HANA or launch new SAP technologies in their organizations.

Both guides have been composed by members of SAP product teams, subject-matter experts, and consultants in collaboration with ASUG and DSAG. They are considered a must-read for anyone concerned with the implementation of SAP S/4HANA. Join this webinar for a quick introduction to the guides and find out what it's all about. **Read more**

SAP S/4HANA Migration Cockpit (June 23, 2020) - AM & PM

The SAP S/4HANA Migration Cockpit is SAP´s recommended tool when it comes to a "New Implementation" of SAP S/4HANA. It facilitates the transfer of business data from a source system to an S/4HANA system; including predefined migration objects containing information about the relevant source and target structures, the relationships between these structures, as well as mapping information for the relevant fields The Migration Cockpit resides in the SAP S/4HANA system and is included in the license, containing 3 migration approaches:

- Transferring Data to SAP S/4HANA Using Files (XML files)
- Transferring Data to SAP S/4HANA Staging Tables (on HANA DB)
- Transferring Data Directly from an SAP System (via RFC Connection) - first released in 1909

In this session you will get an introduction to the SAP S/4HANA migration cockpit.

Agenda

- Introduction to SAP S/4HANA Migration CCockpit
- Overview on different migration approaches
- Demo on "Direct Transfer"

···

Reinvent e-commerce through Intelligent Experience Management (May 05, 2020)

What makes up a great customer experience? The answer, of course, depends on who you ask – and when. Especially in uncertain times, it's more important than ever to understand your customers' challenges, intentions, sentiments, and changing needs, and adapt your business to help genuinely improve their lives. This is one reason why experience management technology is on the rise. By collecting experiential data from customers and connecting it to operational data across the enterprise, organizations can incrementally optimize their business to achieve faster growth, lower costs, and more overall value.

Join our May 5th webinar to learn how to deliver a better digital storefront to your customers by measuring their experience in each moment and using that insight to intelligently shape their ongoing journeys in real time. More meaningful experiences mean more engaged and loyal customers, and that means long-term growth and value for your brand.
